50X1-HUM

1. On 20 May, work on the Rothenburg (Neisse) airfield was discontinued. The work, which had until that date consisted mainly of preliminary clearance, necessitated the use of a large quantity of motor transport. This has now all been withdrawn.
2. On 27 May, the area was quiet, but uniformed figures were observed in two of the six watch-towers overlooking the field. No workmen were observed leaving or entering the fenced-in airfield during the whole day.
